National Child Passenger Safety Certification Program

Skills Evaluation #1: Vehicle Occupant Protection System Identification

This activity must be completed individually.

Student Name: **_____** Date: _____

Signature: _____

Course ID: _____

Identify the vehicle occupant protection system(s), type of latch plate, type of retractor, LATCH and airbag system for each of the instructor assigned vehicle and seating positions. Record your answers below.

You have three attempts to correctly identify each system.   All three attempts will be graded by an instructor on the same form. Instructors will initial each pass or fail attempt and include their Certification ID next to each grade. Should you need a third attempt, please stop, review your workbook and be graded by an instructor who has not already graded you on that scenario.

You must answer all sections (1-5) correctly to pass the scenario.

Students must stand at least 10 feet away from a station while waiting.

CAREFULLY NOTE ASSIGNED SEATING LOCATION AND VEHICLE.

You must be able to show the instructor how you arrived at each selection.
EXAMPLE: "I found the airbag information on page B-42 in the vehicle manual."
EXAMPLE: "This is a switchable retractor. I tested it by…."

Although this is a written test, you must also be able to explain your answers to the grading instructor.

Should an answer be incorrect, the instructor will not indicate which item/section was incorrect

If there is more than one retractor in the assigned seating position, indicate which one it is next to the type.

EXAMPLE: ☑ ALR - *lap*
 ☑ ELR **-** *shoulder*
 ☐ Switchable
 ☐ None

Vehicle And seating position	Seat Belt, LATCH, and Owner's Manual	5. Is there an airbag in the assigned seating position? Check "YES" or "NO". If YES, note **one place** where this information was located.	Scenario Pass/Fail; Student must answer all sections (1-5) correctly to pass the scenario. Student has 3 attempts to pass.
Vehicle 1 Seating position D=driver 	D			 Vehicle: _____	**1. Type of Latchplate** ☐ Locking ☐ Switchable ☐ Sliding ☐ Sewn **2. Type of Retractor** ☐ ALR ☐ Switchable ☐ ELR ☐ No retractor **3. LATCH** Are lower anchors present? ☐ YES ☐ NO Is tether anchor present? ☐ YES ☐ NO **4. Owner's Manual** LATCH information: Page #: _____ Airbags information: Page #: _____ No manual available: ☐	Front: ☐ YES ☐ NO If YES, where was this information found? _____ Side: ☐ YES ☐ NO If YES, where was this information found? _____	Instructors must assign grades with their Certification ID's **Attempt 1** Pass: _____ Retry: _____ **Attempt 2** Pass: _____ Retry: _____ **Attempt 3** Pass: _____ Fail: _____
